Goals for 2014-15

1. Complete research on narrative explorations of disability and sport/recreation (working with Adaptive Sports Partners of the North Country, ASPNC)

2. Continue to assist with local foods efforts
   a. Get involved with the local group working on opening up a food co-op in Plymouth
   b. Attend all Local Foods Plymouth advisory board meetings
   c. Attend other local food meetings on strengthening our food network and securing our food future (Sept. 16th and Oct. 7th)

3. Continue active transportation efforts
   a. Get involved with local active transportation network
   b. Work with municipalities to get several projects ready so we can capture funding when it is available
   c. Get more involved with town planners and select board of Plymouth & Ashland (recent HEAL recipient)
   d. Create local walking and biking maps
   e. Work on trail upkeep, maintenance and signage at Fox Park, Langdon Woods and other local trails
   f. Create a community health promotion program around bike/active transport safety
   g. Get covered bike racks for PSU campus
   h. Hold a community bike education & promotion event in the spring

4. Stay involved in sponsoring & organizing the annual Circle Trot

5. Provide consultation and research for Healthy PSU
   a. Work on creating a generic program evaluation tool
   b. Have research IRB approved for the year
   c. Publish/present data at an annual conference

6. Work with other HHP faculty to develop a new master’s degree program in Health Promotion (public health approach)

7. Get involved with student organization ENACTUS in helping to create sustainable health-promoting programs for our community

8. Continue to identify new ways to secure external funding for Center-related and community health promotion events and programs
