

NH Audubon Introduces...

Know Your Critters, Know Your Water...

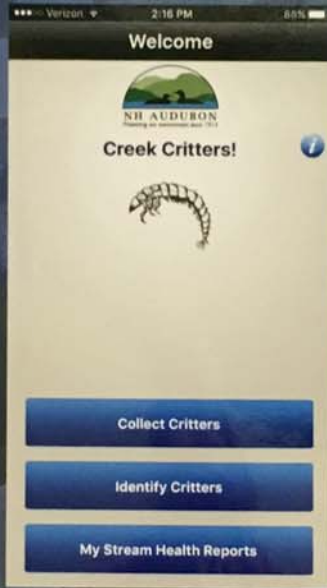

There's an App for that!

Step 1: download Creek Critters! From the iTunes store or GooglePlay.

Step 2: choose NH Audubon for the New Hampshire collection of critters.

Step 3: Use this easy app to identify macroinvertebrates that are indicators of stream health. Use streamside following step-by-step instructions.

This is an incredible resource for teachers and citizen scientists everywhere!

Download your app today and begin your stream, pond, or river exploration.
