Directions for Final: Read the descriptions of performance levels for each criterion carefully. Highlight or underline the overall performance level description that most closely matches the Intern’s performance, based on all available evidence. Feel free to cross out descriptors (the tool is under Format → Font → Effects → Double Strikethrough) within a given performance level that simply do not apply. If the whole standard to be measured is not applicable, do not highlight any of the performance levels; just go to the “sources of evidence” and write under “other” N/A.

For example, a Intern must meet all (again, if the Intern meets all of the descriptors except one that there has been no opportunity to demonstrate, use a strikethrough and highlight the appropriate choice) of the components of the description under “Target” with substantial evidence in order to warrant that rating for each indicator. For a specific example, see “Section I Pedagogy 1. Plans curriculum and instruction based on knowledge of students, subject matter, and curriculum goals”. It is highly unusual that a music teacher Intern would be planning curriculum, but would always be planning instruction. In that case, use the strikethrough tool and strike the first sentence.
