Robertson (Associate Registrar and Degree Auditor, non-voting), Christie L. Sweeney, Cynthia W. Vascak (non-voting), Roxana Wright (seven voting members)

Absent: Christina A. Flanders, Sarah D. Parrish (new faculty observer, non-voting)

Excused: Tonya B. LaBrosse (Registrar), David A. Mackey (on sabbatical), Hilary K. Swank (Chair)

Vacant: one student member

Presenters of Proposals: Linda L. Carrier, Robert Heiner, Adam W. Keul, Hyun Joong Kim, John C. Krueckeberg, Patrick J. May, Filiz O. Ruhm, Sheryl L. Shirley, Laura Tilghman, Amanda E. Whitworth,

Guests: Marissa Lischinsky, Jason R. Moran, Janette T. Wiggett

Note: Unless otherwise indicated, all curriculum changes noted below will become effective with the 2018-2019 edition of the Academic Catalog.

Pat Cantor substituted as Chair of the Committee. She called the meeting to order at 2:30 pm.

I. Discussion about Summer Bridge Program. Jason, Janette, and Marissa are on a planning group for the 2018 summer bridge program and came to share their thoughts and discuss next steps. This would be added supports to help students identified as at-risk to persist and graduate. They are looking at a 5 day program going into panther days. Curricular and co-curricular activities linked with 4 Habits of Mind. They are anticipating 75 students broken into cohorts, mainly undecided students and those eligible for TRIO. TRIO has resources to continue the support for these students after the experience ends. They inquired about using Intro to Academic Community (IS 1010), which had been suggested previously, combined with a Toolkit course. They would like the academic rigor of 2 credits. Based on feedback from 2017, students were most engaged in the academic experience. The IAC course description is outdated and comes with some issues. Who owns this course? Who oversees it? It needs to be overseen by a faculty group. Should Curriculum committee bring forward changes to IAC, or maybe a taskforce? Who would be teaching IAC? There is a time crunch to get this ironed out in time for summer. 'Intro to Being an Engaged Student' is more the focus for 2018. One idea - a Toolkit course per cluster to introduce the undecided students to the clusters. New Toolkit courses could be brought forward as experimental by the April meeting. If the IAC course is not able to be ironed out in time, the planning group would consider a 1 credit Toolkit course along with a non-credit bearing program; that would give time to figure the details out.

a. History, Philosophy and Social Studies Education

i. BS Social Studies Education: revise requirements [tabled 2/16/18]

~SSE 4630 Social Studies Seminar: add prerequisite(s): Praxis II is required prior to enrolling in SSE 4630.

~New course: HIDI 1600 (Re)Considering the Holocaust in a Polarized Society (3 credits). The Holocaust remains a watershed event in 20th century history. Through a study of the Holocaust, students begin to develop an understanding of how it was not an inevitable event, but rather a

Curriculum Committee

culmination of human choice, social situations, hatred, and consequences of post-WWI Europe. Students then apply this learning to their own lives today. Falls and Summers. (PPDI)
Approved 7-0-0-2. Approved as PPDI 2/26/2018 by the General Education Committee.

b. Music, Theatre, and Dance

- i. DNDI 2200 Athleticism in the Performing Arts (CTDI): change credits from 3 to 4. Add to course description: Not open to students who have earned credit for DNDI 2200. New course number is: DNDI 2205.
- ii. DNDI 2100 Empowering Youth Through Movement (CTDI): change title to: Movement for Community. Change credits from 3 to 4. Change course description to: By applying pedagogical frameworks to the experience and study of dance, students explore how movement can facilitate social and emotional growth for many populations. Throughout the course, students participate in a variety of movement related activities and projects, reflections, and a capstone service learning experience. No previous dance or movement experience required. Not open to students who have earned credit for DNDI 2100. New course number is: DNDI 2105.
- iii. ~New course: DN 3070 Dance Design (4 credits). Students explore *Laban Movement Analysis* and use the concepts to craft dance compositions. Through observation and critique by the classroom learning community, students continue to consider space, time, effort, and shape through improvisation and choreographic challenges. Ultimately, using Bartenieff Fundamentals (an application of Laban Movement Analysis) students learn to re-pattern the neurological connections that govern movement through 4 principles: breath, core support, dynamic alignment, and spatial intent. The goal is to re-awaken the awareness of muscles and joints that are not used, used inadequately or misused so that the mover can extend movement possibilities in both energy and expressivity. Not open to students who have earned credit for DN 3100 or DN 3320.
~DN 3100 Movement Concepts for Dance Education: delete
~DN 3320 Dance Composition: delete
- iv. ~New course: DN 3060 Global Dance History (4 credits). Explores the impact of movement and dance in our world. Using film, literature, photographs, and movement itself, considers the political, social, and religious underpinnings of art and culture. All theoretical frameworks developed throughout this course are combined with dance. While no dance experience is necessary or required, students should be aware that they are asked to explore simple dance movement relating to particular cultures. Not open to students who have earned credit for DN 3020 or DN 3050.
~DN 3020 History of Modern Dance and Technique: delete
~DN 3050 World Dance (GACO): delete
- v. ~New course: DN 3080 Dance Project (2 credits). An interdisciplinary performance experience with a focus on dance-making and devised works of performance art. Students participate in choreographic experiences with faculty and partners from campus and community to create public performances. Springs. Prerequisite(s): Audition or permission of instructor.
~DN 3010 Contemporary Dance Ensemble: delete.

Approved 7-0-0-2 as amended.

Dance minor: change requirements; reduce required credits to 16. *Approved 8-0-0-1.*

c. Criminal Justice

- i. Experimental Course: CJ 2xxx Comparative Legal Systems (2 credits). This 1-week course investigates the similarities and differences between the US and Spanish Legal Systems. Participants have the opportunity to experience a culturally rich study/tour course conducted in

Curriculum Committee

Seville, Spain by interacting with members of law enforcement, the judiciary, and government agencies in Spain. Some culture excursions also provided. Taught in English. Summer 2018. Questions from the Committee included: 1 credit versus 2; what is the project; contact hours; academic content. *No action was taken pending additional information. Proposal was withdrawn by the Department.*

d. Educational Leadership, Learning, and Curriculum

- i. New course: EP 7888 Portfolio Assessment. Repeatable. Not eligible for financial aid.
Approved 7-0-0-2.

Geography proposals

- xxxvii. Geographic Information Systems Minor: delete. *Approved 7-0-0-2* (electronic vote).
- xxxviii. Geographic Information Systems Certificate: change requirements. Change total credits required from 16 to 18-20.
- xxxix. New course: GE 3080 Economic Geography (4 credits). Introduces students to the major themes and issues addressed in critical economic geography. Focuses on development, resources, theories, and the impacts of economic systems across the global landscape. Gives students a greater appreciation and understanding of the myriad of cultural political and economics forces shaping our world. Fall of even years.
- xl. New course: GE 2040 Digital Cartography (2 credits). The basic elements of Cartography are discussed and illustrated with practical experience. Students learn the principles of effective digital mapping and become familiar with the types of problems that Geographic Information Systems (GIS) can solve. Covers the essential elements such as spatial reference systems, scale, generalization, projection, symbolization, and geospatial databases from satellite images, GPS, and GIS. Falls.
- xli. New course: GE 2050 GIS I: Introduction to Geographic Information Systems (4 credits). An introduction to the theoretical and applied aspects of Geographic Information Systems (GIS). Students learn about the principles and implementation of GIS and obtain practical experience in the application of GIS to real-world problems. Includes vector/raster data, geodatabase management, coordinate system, datum, map projections, GPS, 3D visualization, and quantitative data analysis and visualization in GIS. Not open to students who have earned credit for GE 3270. Falls and Springs. *QRCO and TECO approved 2/26/18 by the General Education Committee.*
- xlii. New course: GE 3050 GIS II: Advanced Geographic Information Systems (4 credits). Advanced topics in understanding and using geographic information systems (GIS). Emphasizes the organizational and legal context of GIS use, professional issues, communication between different GIS software, and GIS project implementation and management. Covers advanced vector/raster data analysis, GPS data management, spatial analysis, aerial photo interpretation, satellite images, 3D visualization, and GIS modeling. Fall and Springs. Prerequisite(s): (GE 2050 or GE 3270) and (GE 2040 or GEDI 2400).
- xliii. New course: GE 4050 Advanced GIS Applications (4 credits). Advanced methods, theories, and applications of geographic information systems (GIS) to various geographic problems. Emphasizes the applications of GIS and advanced acquisition of technology and skills in managing and analyzing spatially referenced data and information. Covers advanced raster data analysis, GPS application, spatial statistics, remotely sensed image analysis, advanced GIS modeling, 3D analysis and printing, and web GIS. Prerequisite(s): GE 3050 or GE 3270.
- xliv. New course: GE 4100 Geographic Information Systems Internship (1-4 credits). Students engage in an individualized Geographic Information Systems (GIS) work program in government, business, non-profit, educational or other related organizations which emphasizes some aspects of GIS application to their field(s) of study. Falls and Springs. Prerequisite(s): (GE 2050 or GE 3270) and permission of the instructor
- xlv. New course: GE 4060 GIS Programming (4 credits). Geographic Information Systems (GIS) programming and the development of algorithms for spatial analysis. Focuses on concepts, principles, and techniques of programming to solve a variety of geographic problems. Covers the concepts, methods, and approach to object-oriented programming and GIS solutions to automate geoprocessing tasks to explore, handle, manipulate, and model spatial data. Fall of odd years. Prerequisite(s): GE 3050.

Curriculum Committee

- xlvi. New course: GE 4010 Remote Sensing and Digital Image Processing (4 credits). An introduction to the basics of remote sensing, characteristics of remote sensors, and remote sensing applications in multiple academic disciplines and professional sectors. Covers remote sensing principles, aerial photography, digital image processing and interpretation, major remote sensing systems, image display and enhancement, information extraction, digital image data classification, and accuracy assessment. Not open to students who has earned credit for GE 3350. Falls and Springs. Prerequisite(s): GE 3050 or GE 3270.
- xlvii. New course: GE 4040 Topics in Geospatial Technologies (1-4 credits). Introduces students to geospatial technologies and techniques used across various fields and disciplines. Examples might include topics in Advanced Geographic Information Systems, Geographic Information Sciences, Geomatics, Geodetics, Remote Sensing, Air Photo and Satellite Data or Surveying. Falls.
- xlviii. New course: GEDI 2400 Mapping Our World: Creating Realities (4 credits). Investigates the use of maps, GIS, GPS, and other geospatial technologies in our personal and professional lives. Students are required to create maps and analyze existing maps based on best practices within cartography. Topics focus around current issues such as the use of maps in media, electoral politics, environmental analysis, marketing and advertising, immigration, and social patterns. Falls and Springs. *CTDI approved 2/26/18 by the General Education Committee.*
- xlix. BS Geography: revise requirements of the major.
 - 1. GE 2090 Computer Mapping (TECO): delete.
 - GE 3270 Introduction to Geographic Information Systems: delete.

Approved 6-0-0-3.

b. Languages and Linguistics

- i. The committee approved the courses Writing Systems of the World and Language, Ideology and Discrimination with “LC” discipline code pending department, chair and dean approval. Writing Systems of the World was, in fact, approved by the department and dean but not for the discipline code LC. Language, Ideology and Discrimination was never approved by the department or the dean, nor was the discipline code LC. *Neither has been approved.*
- ii. Question: The chair received the list of proposals below on 2/19 (the catalog deadline for proposals not requiring signature of a dean.) Minor changes do not need the signature of a dean. Do creation of discipline codes and changes in discipline code require a dean’s signature? *Yes; need to add to the Curricular Approval chart.*

- Note:* proposals include creating AL, FL, SL, TE as discipline codes. AL is already used for Adult Learning; FL was formerly used for Foreign Language.

c. Justice and Security Cluster

- i. Approve new course ISDI 2xxx Language, Ideology and Discrimination (same course submitted through Languages and Linguistics. This version was signed by Gail Mears who wrote almost immediately after to say that she had signed prematurely and was rescinding her support. In the meantime, the individual proposing the course has not withdrawn this proposal or the original from the L&L department.) *No action taken by the Curriculum Committee. Withdrawn by the Cluster.*

IV. Discussion

- a. Even though they require the signature of a dean, are we willing to consider for next year's catalog program and course deletions submitted for the February 19th deadline for electronic vote? *No action taken by the Curriculum Committee.*

Curriculum Committee

V) Reports (if time permits)

- a. General Education Committee. Met February 12th. Approved seven proposals. They will seek student input on the topic of themed general education. Decided that “Curriculum proposals moving from 3-4 credits that involve courses that already have general education designations and have not diminished the general education content do not need to fill out additional paperwork for the Committee.” Decided that “Students in majors that have a General Education waiver for a Direction will need a minimum of 16 credits in the Directions, rather than 20.” Discussed adding the four habits of mind, approved by the faculty for Gen Ed assessment, to the Catalog description of General Education.
- b. Council of Educator Preparation. Met February 19th.
- c. Faculty Steering Committee. Will discuss using paper ballots at Faculty meetings for new proposed programs.

VI) Adjourn. The meeting adjourned at 5:30 pm.

The Curriculum Committee meets during the academic years on the third Friday of the month from 2.30 until 5 pm in the Student Senate room (HUB 119). Proposals need to reach the Chair 10 days prior to the meeting. Their next meeting is Friday, **March 16, 2018 at 2:30 pm** in the Student Senate Room (HUB 119).

Respectfully submitted,

Mary E. Campbell, Scribe
Sarah L Robertson, Scribe

These minutes were approved as amended on March 16, 2018.
