for Off-Campus Educational & Co-Curricular Experiences

Student Transportation

The richness of a Plymouth State University education may be enhanced through the participation in one or more educational experiences. These experiences are both curricular and co-curricular and may take place on or off campus. Several degree programs include one or more of these experiences as a graduation requirement. Students should check with their advisor and/or department chair to determine if this is a requirement for their major area.

While PSU discourages the use of personal vehicles for all types of group travel, it may be deemed the most appropriate mode of transportation depending on location and duration of travel. When a student does need to use his/her personal vehicles for transportation, Plymouth State University and the University System of New Hampshire (USNH) assume no responsibility for transportation of students to the site of an experience. Students participating in an off-campus educational experience will be responsible for all costs related to travel.

Personal vehicles should be **adequately insured for public liability insurance protection**. Students are responsible for insuring their own vehicles. Students will not be reimbursed by USNH for collision losses that occur during business use of a personal vehicle. In the event of an accident, the owner’s personal insurance provides coverage and the owner is personally responsible for any deductible payable and passengers. USNH does **not** provide any coverage or comprehensive or collision insurance for personal vehicles. A student must possess a valid drivers’ license (not under suspension or expired) and have it with them at all times while on the trip.

I acknowledge that I have read and understand the student transportation policies and will abide by them.
