Funding Opportunities Available

Faculty Research & Scholarship

The Office of Research & Sponsored Programs (ORSP), the Office of Academic Deans, and the Research Advisory Council (RAC) welcome research and scholarship proposals from PSU faculty for the next competitive cycle of the Faculty Research & Scholarship Fund (FRSF). These funds are intended to support research, outreach, scholarship, and/or creative works, not classroom activities.

The FRSF is intended to kick start projects that will lead to external funding, leverage funding from other sources, facilitate future proposals, launch projects that will lead to follow-on activity, build collaborative projects, and complete projects that would otherwise be difficult to fund. The FRSF also strongly encourages projects that create opportunity for student involvement in research and scholarship.

Eligibility

- Tenured, tenure-track, or research faculty are eligible to serve as a principal project director/coordinator, artist, or author.
- PSU contract, clinical, or teaching lecturer may collaborate with a tenure, tenure-track, or research faculty.
- PSU faculty may be the principal project director/coordinator, artist, or author on only one proposal in any year and may not be funded two years in a row.

Funding Availability

- The annual budget for the Faculty Research and Scholarship Fund is typically $50,000+.
- Awards are in the $2,000 - $10,000 range.

Application Process

For application instructions and guidelines, view the full funding opportunity on PSU’s Office of Research & Sponsored Programs website and browse to Funding Opportunities > Internal Funding, OR follow the link below:
